Scholarships for Postgraduate International Study

The Oppenheimer Memorial Trust (OMT) awards a limited number of scholarships annually for postgraduate study at International Higher Education Institutions at Master's, Doctoral and Postdoctoral level. South African citizens or permanent residents may apply for Masters and Doctoral programmes. Foreign nationals may only apply for Postdoctoral programmes.

Scholarships are given to candidates with a proven record of academic excellence who intend to pursue careers in academia, research, development or related fields in South Africa. Only exceptional candidates who present specific and purposeful plans to undertake programmes in unique or highly specialised disciplines in which advanced studies are not readily available in South Africa or who are able to demonstrate that they have advanced to a level where international tuition under the direction of global leaders in their particular discipline is appropriate to proceed meaningfully in their chosen fields, will be considered.

Your application must include the following documents all to be emailed to intlpostgrad@omt.org.za. You may need to email the application in 2 or more parts. Please indicate this in your email.

Document	Explanation	Format
1 Motivation	A signed statement (not more than 500 words) that describes: <ol style="list-style-type: none">1 Background, schooling, general interests and personal philosophy2 Short to medium term plans and priorities3 Career aspirations	Word or PDF

Notes:

1. Applications must be submitted according to the following **start** dates:

- Start Date: January to March – applications due 30th September of the previous year
- Start Date: April to June – applications due 31st January in the same year
- Start Date: July to October– applications due by the 31st March in the same year

Candidates can expect to hear the outcome of their application roughly 2-3 months after the closing date.

2. Applicants must update the Trust on the outcomes of their requests to other potential funders listed in the budget estimates that formed part of their submission to the OMT. **If other funding applications are successful, this will result in the value of the OMT award to be reduced by the value of the applicable co-funding.**
3. **Studies in Progress:** The OMT may consider applications from students who are part way through their studies (e.g. if you are studying a 2 year Master's programme and have completed your first year, you may apply for funding for your second year of studies) in line with the application dates above. If your academic year has already commenced, your application will not be considered.
4. **Eligibility and Tenure:** Students who intend to undertake a second degree at the same level as one they already hold are **not eligible for funding**. Scholarships are limited to one degree or programme of study for the following periods: a maximum of two years for Master's study, a maximum of three years for PhD and two years at Postdoctoral level. Exceptions may be made for Master's scholarship holders upgrading to PhD level.

Awards are granted on an annual basis and renewals are contingent on satisfactory progress and performance as stipulated in the award letter and in compliance with the Trust's reporting requirements.

5. The OMT **does not fund MBAs, DBAs** or other programmes that have a narrow and commercial

focus. The definition of this is decided on at the discretion of the Trustees. Applicants are encouraged to confirm the validity of their application with the Trust before submitting a formal application.

6. **Value of Awards:** Awards will not be granted on a full cost basis and may vary in value depending on circumstances Candidates are encouraged to actively seek out co-funding from other sources including their host institutions and must declare all applications made to other funders to the OMT.
7. Awards are determined on a merit basis at the discretion of the Trustees.
8. Failure to comply with the Trust's requirements and procedures – including the requirement to submit updates on any and all developments – will result in disqualification. Late or incomplete submissions will not be accepted.
